MAXHUB Corporate Solution

BYOM

Microsoft Teams Rooms

MAXHUB OS

> Business Conferencing Trend

Pre-pandemic, people in the office had the advantage.

Hybrid is the trend to stay and evolve

During the pandemic, the playing field was leveled.

Post-pandemic, how do we make meetings inclusive and collaborative for everyone - whether in the office or remote?

> MAXHUB Corporate Solution Overview

Adaptive Solutions

A diverse product lineup designed for different spaces, layouts, behaviors, and budgets to provide targeted solutions

Progressive Approach

An active industry partnership strategy, leveraging the strengths of industry leaders in various niche areas to create room for the future development of product solutions

Engaging Design

Hardware design and software interactions focus on user habits and details, enhancing immersion and becoming an integral part of collaborative actions

1 Signature Microsoft Teams Rooms

2 Small Conference Room

③ Medium Conference Room

4 Large Conference Room

5 Huddle Conference Room

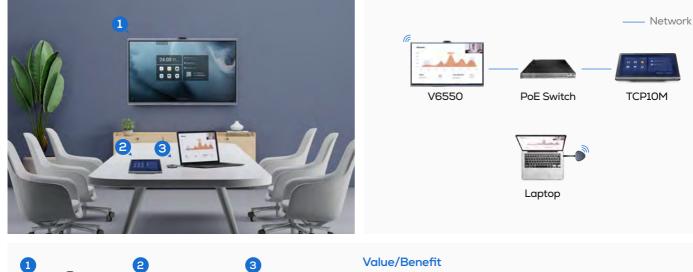

>Focus/Huddle/Small/Medium Meeting Room

Design Intent | Up to 10 Attendee

The ease and simplicity of initiating a productive and collaborative video conference.

XBoard V7 Series Interactive Flat Panel

TCP10M Touch Console

*WT13M Dongle

Everything in one display, unleash infinite collaboration experience · Windows 11 Pro OS, an agnostic platform for versatile video conferences Start meeting from your device, wireless BYOM supported Al-powered video, including auto-framing, speaker tracking, intelligent focus, multiple speaker tracking

> Open Space

Design Intent | 4~6 people

A collaborative environment through the seamless integration of digital content and interactive capabilities

EST09

XBoard V7 Series

Interactive Flat Panel

*WT13M Dongle

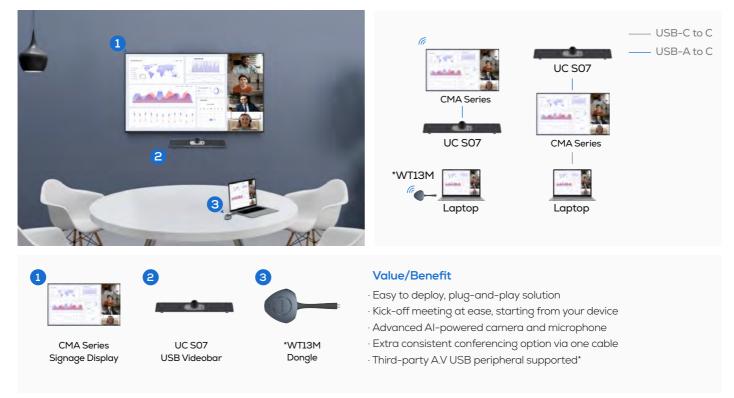

Value/Benefit

- · Touch screens enhance collaboration and engagement
- · Windows 11 Pro OS, an agnostic platform for versatile video conferences
- Electric mobile stand enable brainstorm on the move
- · Hassle-free screen mirror. Robust compatibility in a wide range of sharing protocols

> Display BYOM Solution

Design Intent | 2-20 people

Unique displays offer the possibility to create a dynamic but intuitive meeting

*WT13M: USB-C to C Wire BYOD available in displays starting from 65".

> Videobar BYOM Solution

Design Intent | 4~6 people

Ideal companion of huddle/small space. A minimum effort to enable any space in the collaboration network.

Cost-effective, one device to enable room display at conference
Plug-and-play either cable or dongle for BYOM conferencing
Seen and heard clearly through Al-empowered audio and video
Revive touch display with annotation, whiteboard and screen share
Ease of provisioning, supervise massive room via MAXHUB Pivot

Any Display

Outdoor LED

YM53 Series P4/P6/P10

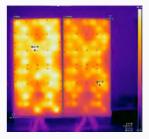

- · The ultra-slim and lightweight cabinet weighs 20.6kg and is 68mm in thickness
- Energy-saving technology derived from the TV industry results in 25% more energy-savings
- · 3840Hz ultra-high refresh rate and a high contrast ratio of 13,000:1.
- The integrated power box enables convenient and efficient maintenance, similar to rental products
- \cdot IP65 high rating for both the front and rear sides of the cabinet
- \cdot Compatible with front and rear installation
- · Lead-free welding and eco-friendly design, complying with ROHS environmental protection requirements

User-friendly Product Design

The fanless design offers improved reliability, via resistance to dust and debris. Module hard connection brings product stability and reliability

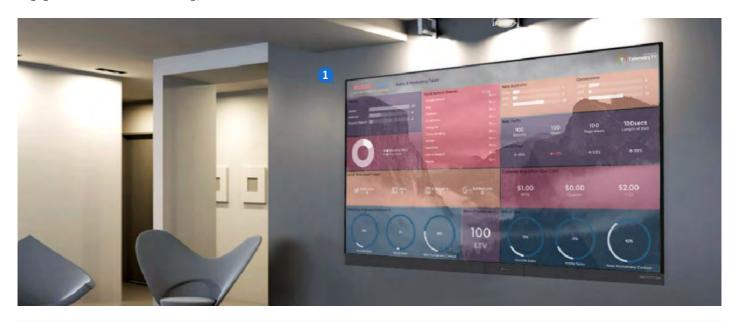

Efficient Heat Dispassion

Compared to the traditional one, under the same screen brightness: -14.7 C Driver IC Temperature; -9.3 C Temperature on the front side of the screen lower temperature, longer service life, more reliable operation

> Lobby

Engage the team with new technology and attractive media content

All-in-one LED

Raptor Series V3

- Full size of 120"/138"/150"/165"/180"/220"(SMD) and 135"/162"(COB)
- Plug-and-play design, integrated video processor, easy to install, use and maintain
- · Six high-performance speakers, maximum output power 120W
- · DUAL system, Android 13, and optional built-in PC for Windows
- Native wireless content sharing capability, including MAXHUB Share, Miracast, Chromecast, and AirPlay
- · Support third-party API control systems, such as Q-SYS, Extron, and more

Powerful Android 13

More powerful computing capability ensures a seamless and smooth system operation when handling multitasking

Immersive Audio System

1

Six high-performance speakers, with front gap sound emission, offers a powerful and engaging audiovisual experience, catching the visitors' attention

> Showroom

Impress the customers from the moment they walk in

 P1.2/1.5/1.9/2.5

 \cdot Ultra-slim structure

- · Cableless cabinet design, simplified installation
- · Stable and reliable 2-in-1 motherboard technology
- · Auto calibration
- · 3840Hz High Refresh Rate

Signage Display

CMA Series

- 43"/55"/65"/75"/86"/98"
- · 4K resolution 10-Bit color
- · 25% Haze Anti-Glare
- $\cdot\,500$ nits Brightness
- · 24/7 long Operation
- \cdot Energy-star and Erp certification
- · Ultra-slim bezels & IP5X rated
- \cdot Integration with leading control systems & CMS platform

Ease of Use

Front maintenance saves the steel structure and onsite installation space

The 16:9 aspect ratio for LED displays provides a standardized format and enhanced video experience to cover more applications

Smart Display

2

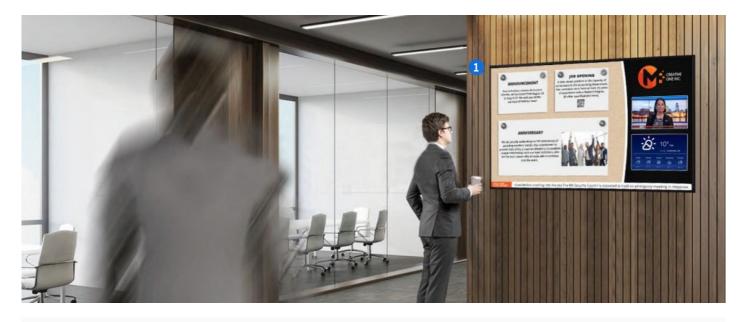

The built-in Android makes it a convenient and versatile choice for businesses looking to deploy signage displays for various applications

Anti-glare technology in signage displays improves visibility, reduces eye strain, and enhances image quality

> Wayfinding

Unlock seamless navigation and directional guidance

Signage Display

CMA-T Series 65"/75"/86"

- · 4K resolution 10-Bit color
- · 25% Haze Anti-Glare
- · 800 nits Brightness
- · 24/7 long Operation

· Energy-star and Erp certification

- · Ultra-slim bezels & IP5X rated
- \cdot Integration with Extron, Crestron, and Q-SYS

Signage Display

*UW Series 92"/105"

- · 21:9 ultra-wide ratio
- · Ultra-crisp 5K display, sleek design
- · 500 nits brightness, 24/7 display
- · 10-bit color depth and wide 72% NTSC gamut

*UW series 105" supports 400nits, 16/7 operation hour and only landscape mode

- · Portrait and landscape mode
- · Energy-star certification
- · Integration with Extron, Crestron, and Q-SYS

Clear Visibility for Content

4K resolution display and 800nits high brightness ensure adaptability to varying lighting conditions

Digital Signage Landscape and portrait modes bring orientation flexibility to suit different environments

> MAXHUB UC Product

BYOD

Easy to deploy with PoE feature

PoE power supply, easy installation (UC S07, UC S15, UC P15, UC P25).

PoE

One type C cable/one Dongle for full-function BYOD, with camera + microphone + speaker + screen projection (UC S15).

Easy to present with full-function BYOD

UC management software

MAXHUB Align offers comprehensive settings and firmware upgrades for UC products.

Videobar

UC S07 All-in-One Video Soundbar

- Speaker tracking (face & voice localization)
- PIR sensor for auto power on / off
- 6-intelligence beamforming mic with 8m pickup
- · Voice empowered Hi-Fi speaker
- BYOD USB mode (auto-detection)
- · Compact and elegant design

UC S15 Multi-Function Meeting Companion Collaboration Videobar

- · Auto framing (Al vision)
- Speaker tracking (face & voice localization)
- · 6-intelligence beamforming mic with 8m pickup
- · Voice empowered Hi-Fi speaker
- · Dual-wireless module with screen-sharing (up to 4 devices) · Built-in compute (direct HDMI output)
- · Wired BYOD USB mode (auto-detection) / Wireless BYOD
- · Compact and elegant design

Camera

The 4k Intelligent Dual-Eye Ptz Camera, Tailored for Medium to Large Meeting Spaces

Dual Lens 4K Camera

UC P30

- 120° FOV wide angle lens detects participants in real-time while directing the PTZ Camera with best view The 12X optical zoom, powerful 8MP camera and 4K resolution offer the range and picture quality to
- produce the highest quality output.
- Auto Framing; Speaker Tracking; Presenter Tracking
- Remotely manage and control via MAXHUB Pivot or room control on MAXHUB Microsoft Teams Rooms products. With PoE+, a single Cat5e/Cat6e cable supports IP Streaming and power.

UC W31

Compact, Portable USB Webcam Delivers Ultra-Sharp 5x Zoom Video

- Advanced 1/2.3 " 12MP Sony sensor with natural color reproduction
- 120 wide angle 4k lens with 5x digital zoom
- Built-in intelligent framing technology to keep participants in view
- Dedicated LED light indicating camera activity

> MAXHUB UC Product

Speakerphone

UC BM35

Superior Bluetooth Conference Speakerphone with Wireless Cascading

- · Advanced AI noise reduction for an uninterrupted meeting experience
- · DOA tracker to focus on human voice
- · Tweeter + woofer combo speaker for richer sound
- · Dual audio mode (auto-switch between music and conferencing)
- · Dual Bluetooth channel (instant NFC and secure dongle link)
- · Fast & reliable wireless cascading to expand coverage
- \cdot 3 devices simultaneous connection (USB, Bluetooth, NFC)
- \cdot Multicolour LED ring light to indicate device status

UC BM45 Conference Speakerphone with Advanced Noise Suppression and Full-duplex Echo Cancellation

- \cdot Wired connection is more secure and stable.
- This device has built-in audio AI algorithms. To ensure optimal performance, please disable echo cancellation, automatic microphone volume adjustment,
- and noise reduction algorithms in the conference software.
- The maximum pickup distance is 8 meters in radius
- ·With PoE+, a single Cat5e/Cat6e cable supports IP Streaming and power, max to support 6pcs

MAXHUB Align Control and manage MAXHUB UC products

MAXHUB Share Content sharing, wireless BYOD

MAXHUB Accessories

MAXHUB Software

*WT13M/S Screen-Sharing Dongle

- · USB-C&USB-A (adaptor) interface
- · Video, audio, and touch signal transmission. No need to install any software (type-C)
- Wireless sharing camera, microphone and speaker (only compatible with IFP V6 Series and UC S15)
- · Compatible with WBO1, WBO5 UC S15, IFP V6 Series, Raptor Series, etc.

WB05 Wireless Screen Sharing Box

- · Step up from small screens to large displays, with plug-and-play ease
- One-click easy for 4K Ultra HD and 60Hz high frame rate output
- · Supports up to 9 split-screen displays, making optimal use of screen space
- · Double your utility with dual HDMI interfaces, for the ability to use dual-screen outputs

> Why MAXHUB

Transform BYOD scenario into smart meeting spaces

Elevate your meeting space with the cutting-edge Microsoft Teams Rooms-MAXHUB XCore Kit. The solution enables organizations to make the leap to Microsoft Teams Rooms smart spaces in BYOD scenarios, enhancing Teams-native audio and video experiences while accommodating cost-balance needs.

A one-stop device solution empowering multi-scene collaboration

MAXHUB empowers multi-scene collaboration with powerful kits bringing together audio, video and an optional variety of display sizes to choose from. It reduces costs associated with communication, management, and usage at multiple stages of procurement, installation, and utilization to post-maintenance. Now organizations at all levels can unlock a new level of efficiency and productivity.

> Product Info

MAXHUB XC13T

Teams Rooms Windows Compute

- \cdot Purpose-built Window Compute to simplify Teams Room deployment
- \cdot Pre-loaded Microsoft Teams Rooms software on the latest Windows 11 loT
- \cdot 12th Gen Intel CoreTM Processor with TPM 2.0 for a robust & secure meeting environment
- \cdot Versatile mounting bracket with integrated cable management
- \cdot Seamless integration with MAXHUB and other MTR ecosystem meeting room peripherals

МАХНИВ ТСР20Т

Teams Rooms Touch Console

- \cdot High clarity antiglare 10.1" Full HD touchscreen
- \cdot One cable technology to link up with XC13T Windows Compute
- \cdot Direct HDMI Ingest support for BYOD presentation
- \cdot Built-in USB port for easy connection to audio peripherals on the meeting tablet
- \cdot Auto wake on human detection with the integrated infra-red motion sensor

Teams Rooms 4K Videobar

- \cdot Ultra HD 4K Sony sensor with advanced image processing
- \cdot 5x digital zoom, electronic pan/tilt/zoom, and up to 10 presets
- \cdot Intelligence framing technology combines human detection and DOA voice tracking
- \cdot 6 beamforming microphone arrays with 11W speaker
- \cdot Multi-colour LED light bar indicating camera and microphone status

MAXHUB UC W31

Teams Rooms 4K USB Camera

- \cdot Advanced 1/2.3" 12MP Sony sensor with natural colour reproduction
- $\cdot\,120^\circ$ wide angle 4K lens with 5x digital zoom
- \cdot Built-in intelligent framing technology to keep participants in view
- \cdot Dedicated LED light indicating camera activity

> Product Info

XC25T

Teams Rooms Windows Compute

- · XC25T mini-PC with 12th generation Intel® Core™ i5 Processor
- · Share your content at up to 4K resolution through HDMI in port on XC25T mini-PC
- \cdot Easy and flexible installation with just cat5e cable required between mini-PC and touch console
- \cdot Support to connect dual room display to view both content and camera stream

тсрзот

Teams Rooms Touch Console

- · A 11.6-inch touch console
- Automatically sleep/wake your room display on an inactive/active video signal to save energy
- Share your content in the team room with the MAXHUB wireless dongle or MAXHUB Share App and wired-type cable
- · Support to up 2 consoles to control simultaneously, a better experience for larger space.

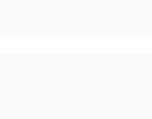

Teams Rooms PTZ Camera

- · Dual Lens 4K Camera
- $\cdot\,120^\circ\,\text{FOV}$ wide angle lens detects participants in real-time while directing the PTZ Camera with best view
- The 12X optical zoom, powerful 8MP camera and 4K resolution offer the range and picture quality to produce the highest quality output.
- · Auto Framing; Speaker Tracking; Presenter Tracking
- · Remotely manage and control via MAXHUB Pivot or room control on MAXHUB Microsoft Teams
- · Rooms products. With PoE+, a single Cat5e/Cat6e cable supports IP Streaming and power.

UC BM45

Teams Rooms Speakerphone

- · Wired connection is more secure and stable.
- This device has built-in audio AI algorithms. To ensure optimal performance, please disable echo cancellation, automatic microphone volume adjustment, and noise reduction algorithms in the conference software.
- \cdot The maximum pickup distance is 8 meters in radius
- \cdot With PoE+, a single Cat5e/Cat6e cable supports IP Streaming and power, max to support 2pcs

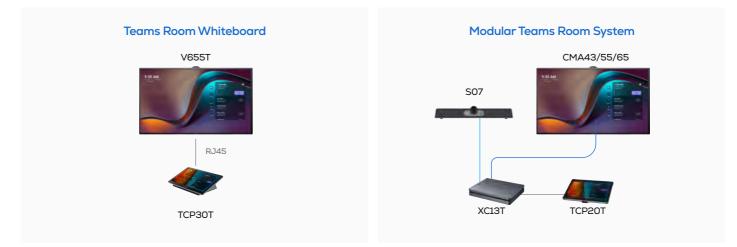

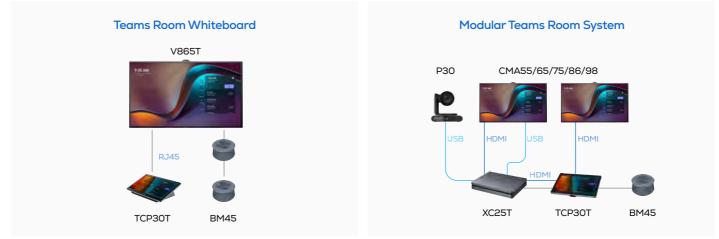

> Huddle and Small Room have Covered a Variety of Solution

MAXHUB MTR solution supports multiple options. It not only supports all-in-one IFP with a console, but also supports modular solutions for convenient deployment.

> Medium to Large Room

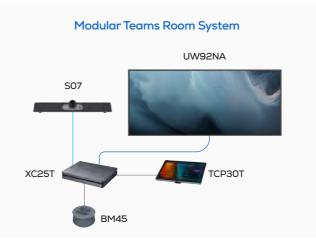

MAXHUB MTR solution supports multiple options. It not only supports all-in-one IFP with a console and expandable microphone but also supports modular-type solutions for convenient deployment.

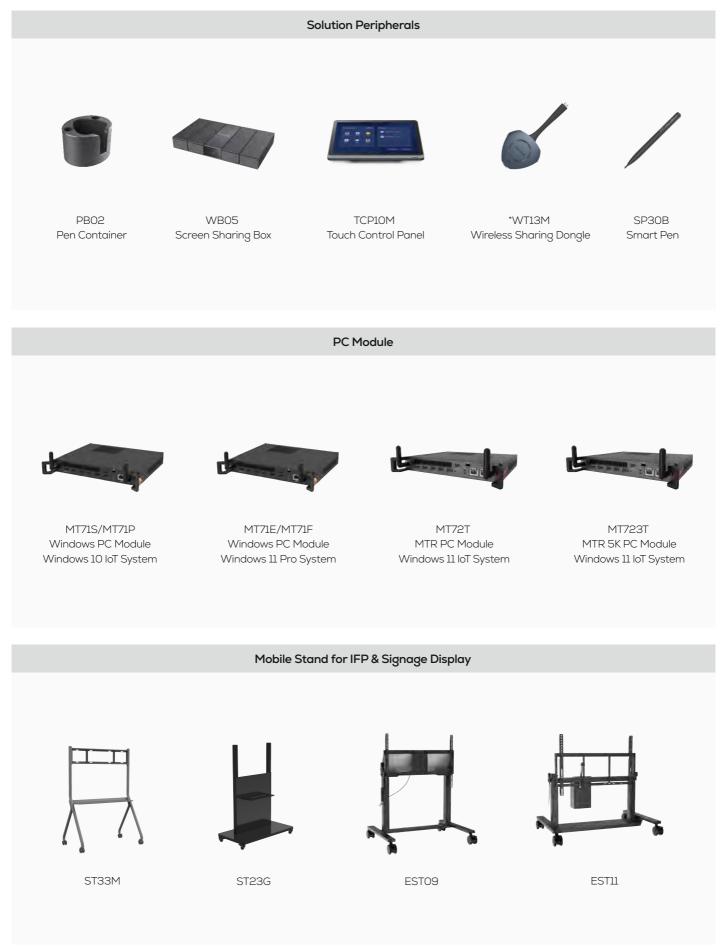

> Signature Room

MAXHUB MTR solution supports signature room. It not only supports all-in-one IFP with a console and expandable microphone but also supports modular-type solutions for convenient deployment.

> MAXHUB Peripherals

> MAXHUB Software-MAXHUB Conference OS

Streamlined conference experience Quick and easy conference participation

- Display the conference agenda on the home page through the integrated Google and OneDrive calendars; Just click the agenda to join the conference.
- Scan the code or click the link to join the conference; You can also copy the conference link on the web page using your smartphone or computer and share it with others. Automatically open the conference link using IFP to join the conference.

Faster and better records Ideal writing environment

- Fast writing response with extremely low latency ensures users feel like they are writing on paper.
- Write with a pen, drag the canvas using multiple fingers, erase with your palm, and utilize multi-gesture control to enhance the writing experience.
- Supports multi-element insertion insert documents, pictures, notes, and mind maps.
 Al ability and handwriting recognition of graphics and text improve drawing efficiency.

Efficient document presentation Markup PPT slides

Directly write on PPT slides, add notes, turn the page, and save the written content with the PPT after the conference comes to an end (Support local playback of PPT, and Windows PC wireless screen transmission of PPT).

Efficient document presentation Multi-mode and fast wireless screen transmission

- Support screen transmission through dongle, client, AirPlay, Miracast, and Chromecast, etc.
 Allow up to 4 participants to share content concurrently. MAXHUB Share delivers crisp and clear screen-sharing clarity up to 4K resolution.
- \cdot Ultra-low transmission latency with 0.09s transmission time. 2-way collaboration allows laptop to be operated from the MAXHUB flat panel.
- · Wireless access to cameras and microphones.

Instant meeting access with one click

• There are four mainstream conference platforms to choose from.

> MAXHUB Pivot

Enhanced device management

Manage devices remotely at any time, from any location

- Set the timer remote switch on/off, lock the screen, restart the device, and set wallpaper and boot animation for the device.
- Set a schedule for automatic firmware updates.
- Group devices as required; Support batch device management as well as operation and maintenance.
- Unified application management, supports remote batch installation, enabling/disabling, and uninstallation of applications.

Faster fault response

Conduct remote monitoring of device status

· Monitor the device's online/offline status at any time.

In case of device faults, quickly identify problems
 via remote screen control, fix the fault, and
 minimize device downtime.

Control device usage Powerful device usage data analysis

- Clearly view hardware and software information, check device memory and hard disk usage, and geographic location of the device.
- View device activity through an intuitive data panel, query operation records within 90 days, export data reports, and analyze statistical data to obtain useful insights.

> Partner Alliance

Joint forces to create exceptional technology solutions

The needs of our customers are our top priority, That's why we collaborate with industry-leading partners from various fields to develop solutions that are win-win for everyone involved.

Our partners comprise UC collaboration platforms, professional audio-video platforms, control systems and AV-over-IP providers. Together with our partners, MAXHUB aims to create a seamless integration of hardware and software, ensuring their compatibility and connection stability for you to connect and collaborate impactfully when it matters.

> Key Partners

Microsoft

MAXHUB, in partnership with the world-leading UC platform Microsoft Teams, has jointly developed the "MAXHUB XT Series for Microsoft Teams Rooms". This series includes a console kit, webcam of your choice, speakerphone, video bar and various peripheral device choices. Furthermore, customers can enjoy various display options in different sizes and ratios.

When it comes to modern meeting spaces, MAXHUB offers more than just hardware: we are committed to providing the most comprehensive range of meeting solutions possible. With the MAXHUB XT Series, you aren't just guaranteed top-notch devices - it is also a one-stop shop for all your Microsoft Teams Rooms needs

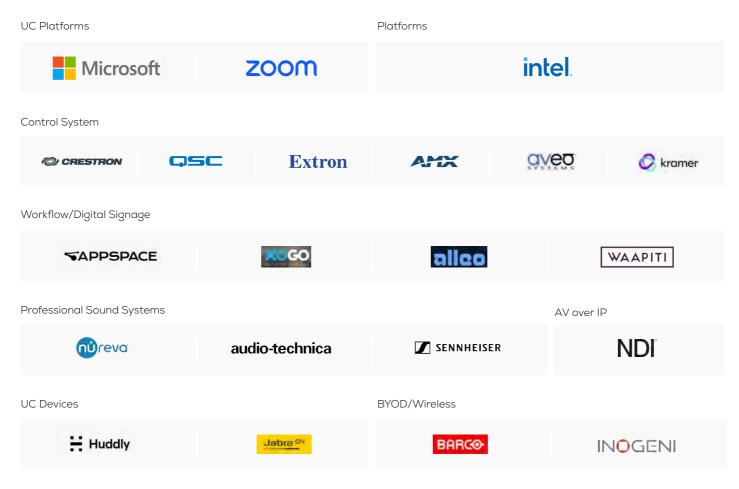

zoom

Video conferencing solutions from MAXHUB and Zoom work together to power Zoom Rooms, and Zoom Meetings for desktops.

intel.

Intel's exceptional chip technology powers MAXHUB hardware, allowing for robust operational performance that ensures seamless user experience and rapid data processing capabilities, all of which significantly enhance conferencing efficiency.
